RIPRO[®]
Reliable Experts for Construction

WE **BUILD**
BEYOND PERFECTION

Since 1988

DIRECTOR'S MESSAGE

Ramawat Group was created on the belief of raising the bar of the construction industry. With the help of pioneering technology, principles of excellence, and sustainable practices: we feel honoured to declare that we have stood by them and have achieved milestones throughout our journey. We have been creating happy spaces since 1988 out of our sheer hard work and determination. Our ambition is to usher in an era of advanced industrialization with state-of-the-art. Commercial buildings that stand tall in the world. We aim to construct houses that cater to the present needs of the people while providing them with a safe future. With every space we make, we take on step closer towards making a sustainable, affordable, and durable contribution to the infrastructure of our country.

JAI PRAKASH RAMAWAT
Managing Director

WHO WE ARE

Ramawat Group was established in the year 1988 in Jaipur under the guidance of our founder and chairman Babu Das Ramawat. Ramawat group has been an epitome of quality, commitment, and success. We started our journey with Asia's biggest canal project "Rajasthan Canal Project" (previously Indira Gandhi Canal) and catapulted as a leading player in the construction industry of Rajasthan & Gujarat.

Within a short span, we succeeded in adding new dimensions to our mission by successfully erecting Wind Turbines in remote locations of Rajasthan and Gujarat. In 2011, we went a mile further by completing solar projects of 400MW including land area development. With these landmark projects, we have set a benchmark for innovation and quality.

We intend to transform the construction industry with path-breaking technology, quality and innovation, while ensuring timely delivery. We strive to develop world class infrastructure in India with focus on commercial and residential units in the urban landscape.

We believe in inclusive growth, affordable pricing, and sustainable development. With more than 25 years of experience in the industry and completing several prestigious projects with perfection, we believe that our organization has the potential to achieve greater heights of success and set world class standards.

JOURNEY WE HAVE

1988

Constructed Canal
Aqueducts & State Road
Bridge in Remote Rajasthan

1999

Erected a Boundary wall

QUALITY POLICY

MAINTAINING QUALITY IS OUR TOP PRIORITY

RIPRO is a testimony to the quality of hardwork and a great vision. Our organization is a leading name in the field of commercial and residential projects for the private and public sector. Our success is an outcome of our customer-centric approach. With the help of our expert team and the use of High quality material, we have always surpassed in terms of quality and design.

WORK SPEAKS

Our projects speak for itself. Our organization is known for exceeding client's expectation in terms of quality and design.

INPUT MATTERS

We ensure that only the best material is used in projects we undertake. Our process includes many levels of reviews and check of quality.

CONSTANT CHECKS

For us, quality is more than just a promise. We ensure that our clients receives the best in class services.

TRANSPARENCY IS UTMOST

At every level and with every stake holder, our process is clear and transparent. No ambiguity leads to long-lasting and trusted associations.

STAKEHOLDER DEVELOPMENT

Our project partners like suppliers and subcontractors are well known for their goodwill and work ethics. We only work with the best.

EQUAL FOR ALL

Our quality measures are applicable at every hierarchy level. From top management to foreman, everyone is accountable and responsible for maintaining quality.

SAFETY POLICY

SAFE WORKPLACE. PRODUCTIVE WORKPLACE

A safe workplace translates into improved productivity. We assure that each measure is taken to ensure the safety, health and welfare at work for all employees. Needless to mention, this is our topmost priority.

OUR MANTRA

- Prevention is better than cure.
- Our talent is our asset. No task is more valuable than our workers and their well being.

OUR POLICY

- Provide best in class construction services.
- Adherence to all legal requirements for safety.
- Providing adequate training regarding safety measures.
- Following safety measure at all levels of operation.
- Employing subcontractors who follow principles of work & safety laid out by organization.
- Ensuring transparency to facilitate better communication & consultation regarding safety measures,
